

HRATSCHYA GARGALOYAN about teaching:

“I am a répétiteur and a piano accompanist that enjoys working with singers as well as instrumentalists. I am currently studying a Masters degree in Chamber Music with my Trio ensemble. Making music with others is a great pleasure to me and I hope that I can transfer these feeling to others. The nuances in musical expression and an overall good understanding of the music itself are essential to building a mutual ground for a musical collaboration and along with the acquisition of the music score and a conceptualisation of the music, I hope that I can help others achieve their musical goals.”
